In the case of medicines the law provides that certain drugs shall be mentioned on the labels, if they are ingredients of the preparations. "BROTHER JIM"

On Trial at Hawesville. Every
body His Friend. Assets of
Parish Bank Not Worth
Ten Cents on \$1.

News from Hawesville, says during James H. Parrish's trial he has completely won the hearts of the Hawesville people. Everybody calls him "Brother Jim." He attends church and nearly every night he has a song service. If he stays much longer, it is said, he will be building churches. Report of trial is as follows:

Hawesville, Ky., Dec. 14.—The trial of James H. Parrish was resumed here this morning at 10 o'clock on the arrival of attorneys and many witnesses from Owensboro. C. C. Clinton, cashier of the National Deposit Bank, was the stand practically all day. He stated that \$850,000 of the alleged assets of the Parish bank were not worth more than ten cents on the dollar, that when the Owensboro Clearing House Association was formed Mr. Parrish refused to join because he would have to submit his bank to examination by the association, and he knew this would result in his rejection as he was taking paper that the other banks considered to be good.

He admitted that he had accepted about \$20,000 of the same kind of paper that caused the Parrish crash. "Yes, but I got out," said Mr. Watkins, "and left me in," was the quick and first interruption of the trial by the defendant, Parrish.

The evidence of Mr. Watkins showed that several bankers besides Mr. Parrish lost heavily on much the same kind of paper that wrecked Parrish. Louisville Times.—

OFFICE OF THE OLD ORIGINAL SANTA-CLAUS

Kalamazoo, Mich., Dec. 7, A. D. 1908.
Mr. S. J. Brown, Prop.,
Home Bakery and Confectionary,
Cloverport, Ky.,

Dear Sir:-

I understand that you have opened up a new place of business in Julian Brown's old stand. I remember the place very well as I had such a tight scrouge getting down the small flues last Xmas. Now what I want to say is, I learn that you are making the finest line of pure hand made candies that was ever put before the public, and as I have had so much trouble with my little friends who have eaten my goods, these many long years of trouble and experience have taught me a great lesson in the way of pure candy.

So I have decided to use nothing but the purest and best, and to do this I have decided to make your place my headquarters and take orders from the mothers and fathers of the good little boys and girls. Also for the BIG BOY for his GIRL. You must prepare a window for me and have as many to come in each day as you can and give me their order so we can avoid the rush and everybody get what they want.

I will be there on the Cannon Ball December 10th, and as soon as I get my breakfast I will be at your place and will stay with you Thursday, Friday and Saturday, 10th, 11th, and 12th, then I have to leave you until the 17th. I will be back and stay with you the 17th, 18th, 19th, 20th, 21st, 22nd, 23rd and 24th. Don't forget the dates.

Yours truly,

SANTA CLAUS.

The Correct Time

To stop a cough or cold is just as soon as it starts—then it will be too late. It cures pneumonia or consumption. Just a few doses of Ballard's Horsebuck Syrup taken at the start will stop the cough. If it has been running on for sometime the treatment will be longer, but the cure is sure. Sold by A. B. Fisher.

A \$4000 Contest--Shorthand Free.

The Chartier students finishing 172 words ahead of all other contestants in the \$4000 Shorthand Contest has awakened a great interest. Our graduates in this system now hold excellent positions in the 4th Ave. and Main St. houses, where high-class work is demanded, and none of these graduates were in Shorthand more than 12 weeks, some were in only 10 weeks, some 8.

This is a sample of the systems we teach and WHY we can graduate students in Book-keeping in 16 weeks and in Shorthand in 12 weeks.

POSITIONS GUARANTEED.

Business men are constantly on the lookout for young people who can do a great amount of work and do it easily, and there is such a great demand for our graduates, so many more calls than we can fill that we will guarantee to place you in a good position when graduated. At this writing we have a \$65 position an no one to take it. We often have 20 calls a month more than we can supply, often in a week we have a half dozen good positions for graduates that we cannot fill.

A FAIR PROPOSITION.

During the past three years we have demonstrated the real merits of the wonderful Chartier Shorthand and Actual Practice Book-keeping. We know their possibilities, and, while it might seem strange that we CAN and DO graduate students in 28 weeks, for \$80, and that it takes from 12 to 15 months with old systems, and costs \$150 to \$180, yet, with THESE SYSTEMS this is possible. We know this as we have a host of graduates drawing excellent salaries and

NOW, we are going to give a Full Week's Instruction FREE, beginning January 4th, admitting all who desire. At the end of the week having thoroughly investigated the work and having paid no money you can then decide whether it is what you want and whether to take it or not.

Does it not look that we have great confidence in the systems to be willing to take you and teach you a week FREE and then let you decide what you want to do? No school teaching any other system will permit you to do this--the reason is, the old systems are so hard to learn that if you were to take a week free, they could not induce you to take the course. While with this system, when you have been a week you will be more anxious to take the course than ever. We know this and willingly give you the week FREE.

Make your arrangements to be here January 4th, and at the end of the first week you will enroll for the course.

Enroll January 4th. Graduate in Book-keeping and Shorthand and a good position will be yours. We guarantee results. Bring your friends with you. Day and Night sessions.

OLD FASHION REVIVED.

The Samplers of Our Grandmothers' Time in Vogue.

It was in the days when the samplers of our grandmothers' time went out of fashion, for they helped many a little girl to learn how to properly handle a needle. For this reason it

is good news to hear that there is now some chance of the mistake being rectified. It is said that the old crewel work is to return. Give any little girl a bit of canvas and some bright zephyrs and let her finish the thing. I am sure my own work would surely be interesting. It will keep the busy little hands out of mischief, and the result will often be surprisingly good.

If the immittive lassie is allowed to choose and execute her own conception of a design the work will be doubly interesting, for she will frequently develop some latent talent.

The secret of making a task attractive lies in not letting the child work off its first enthusiasm. Any child or any grown person, for that matter, will attack a task in the beginning with a vim that would make any new task in undertaken. Unfortunately the first time the work is taken up it is continued so long that unaccustomed hands become tired and the constant effort grows irksome. Make it a pleasant task, something to look forward to, something reward for good behavior, and in this way the novelty is preserved and the work does not cease to be interesting.

It is much the same with dolls. Take them away before they get to be too familiar, before the inquiring little fingers begin to strip off some covering new, destroying the treasured possessions. If this is done there will always be some novelty to produce when days are long and rainy.

Medicine That is Medicine.

"I have suffered a good deal with malaria and stomach complaints, but I have now found a remedy that keeps me well, and that remedy is Electric Bitters; a medicine that is a medicine for stomach and liver troubles, and for ran down conditions," says W. C. Kiensler, of Halliday, Ark. Electric Bitters purify and enrich the blood, tone up the nerves, impart vigor and energy to the weak. Your money will be refunded if it fails to help you. 50c at Seven drug store.

NEEDLEWORK NOTES.

If a girl has clever fingers she can make herself pretty soft arrangements out of ribbons. The dowered ribbon maker can make trim and graceful arrangements on the new big dresses or are not difficult to accomplish. useful covers for table and side-board are of linen hemstitched and edged with Irish peasant lace. The linen may in fact, must be coarse, and it is very inexpensive. Blue does not soil easily, while the lace is all the color of the delicate tones of the cotton and quite inexpensive. The cover is intended for the side-board the lace and hemstitching need be only on three sides, the selvage serving for the side nearest the wall. The hem of these covers should be about two inches from the board. The Irish lace is in reality beautiful fabric, though it is not heavy for its purpose save for household furnishings.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens man's action; beauty, vigor and other physical qualities disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born with kidney trouble and die before the age of two years. If the child urinates too often, if the urine smells like the flesh or if, when the child reaches the age of six, he is able to control the passage, it is yet another with bed-wetting, depend upon it, that is the cause of the difficulty is kidney trouble, and the first step must be toward the treatment of these important organs. The unassisted trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The secret of the immediate effect of Swamp Root is soon realized, it is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample of Swamp Root free, also pamphlets telling all about it. Including many of the thousands of testimonial letters received from different ones. In writing Dr. Klims & Co., Birmingham, N. Y., be sure and mention this paper.

Don't make any mistake but remember the name, *Swamp Root*. Dr. Klim's *Swamp Root*, and the address, Birmingham, N. Y., upon every article.

WHAT THE KIDNEYS DO

their Unceasing Work Keeps Us Strong And Healthy.

All the blood of the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms— pain in the back, headache, rheumatism, hot, dry skin, rheumatism, goat, gout, disorders of the eyesight and hearing, deafness, irregular heart, debility, drowsiness, droppings, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

J. J. Dyer, living in Cloperton, Ky., says: "I have kept Doan's Kidney Pills constantly in the house for over ten years and have never found a remedy that would equal them. Three years ago my back was so lame and sore that I was scarcely able to straighten after assuming a stooped position. Whenever I contracted the slightest cold it was sure to settle on my kidneys and aggravate my suffering. A few doses of Doan's Kidney Pills have never failed to bring me prompt relief, and my wife has also used them with excellent results. I procured Doan's Kidney Pills at Fisher's drug store, and it gives me great pleasure to recommend them to others afflicted with kidney complaints."

For sale by all dealers. Price 50 cents. Fisher-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

OFFICIAL

PROCEEDINGS

of Breckenridge County Court

Regular Term, November 23, 1908.

As directed by Section No. 4115 of the Kentucky Statutes, it is hereby ordered that Calvin Hendrick, John Jennings, Jesse H. Miller, Taylor Dowell and Alonso C. Glasscock be and they are hereby appointed a Board of Supervisors in aid for Breckenridge County, Kentucky, for the year 1909, and the above named persons shall constitute a Board of Supervisors of tax for the said term in the aforesaid County.

This Court adjourned this board of Supervisors on the first day of their session subsequent to be held for the members of the old Board, each to appear on a set day or all together, in their discretion, the object being to right any previous unintentional injustices or to procure any information concerning any matter in which the Board is interested.

A great number of suits having been filed by the State Revenue Agent against persons in Breckenridge County for taxes on property which they failed to list, and a report being current that many others will be or should be filed, and it appearing from records and reports that there is much personal property in the County which is wrongfully escaping taxation, and the burden of taxation really being on the land owners, especially the smaller ones; realizing that these suits are an expense and inconvenience to the individuals and a source of embarrassment to the banks and in every way unnecessary, if every body could be fair in their statements and in their accounts, I recommend that the Board of Supervisors exercises all possible care and diligence in their deliberations and investigation and so equalize the burden of taxation equitably distributed. Any person or persons wrongfully assessed, may and must appear before the County Court, at once, and the matter can be corrected, these matters should not come before the Fiscal Court as the County Court has jurisdiction.

This Board is hereby directed to meet at the Court House in Hardinsburg, on the first Monday in January 1909, the penalty provided for a failure of prompt attention in obedience to this order is a fine of twenty-five dollars.

The county Clerk of Breckenridge County is hereby ordered to make six copies of this order and promptly deliver the same to the Sheriff of Breckenridge County.

The said Sheriff will deliver a copy of this order to each of said persons above named and make due return of his acts on the sixth copy to the Clerk of the said County Court.

In addition to above copies, Clerk will deliver, at once, a copy of this order to each of the County papers for publication.

A DREADFUL WEAPON.

The Slashing Sharks' Club of the Polynesians

Cuba was the home of primitive and savage man. Ancient specimens from Mexico are heavy clubs grooved along the side for the insertion of blades of obsidian—that is, volcanic glass. The Slowing club is a flat piece of wood, curving and widening away from the handle, and ending in a pointed head, which in modern times is carved a long spike, while the blades of several butcher knives are commonly inserted along the margin. The national museum of the United States possesses a great variety of these clubs, which were used by the frontiersmen, say, to "knock down the white man and then to hump him and cut him into mince meat." The Kings-mill islanders and other Polynesians make dreadful slashing weapons by securing rows of sharks' teeth along a blade of iron.

The weapons vary from a few inches to sixteen feet in length, and it has been said that in all the range of weapons devised by mankind there is nothing more blood curdling to behold. They show how the sword may have been evolved from the club even by being decorated with iron or metal. African weapons, again, are exceedingly complicated owing to the acquaintance of the natives with iron. The standard club is converted into a sort of tomahawk by the addition of blades or into a primitive spear by the addition of a sharp spud. The plain clubs are used chiefly for throwing.

The small knobbed clubs, or "kerries," such as are found among the Kaffirs and other African tribes, are generally used as missiles. Whereas the club was used originally to pierce a man's savage enemy, and was long ago abandoned as a weapon of civilized warfare, the missile—typified by the thrown clubs or "kerries"—is still being improved upon in boomerangs, bows and arrows, crossbows and shields for throwing.

VERY FINE.
This Simple Home-Made Treatment Will Overcome Rheumatism.

Few people here know that you can cure that dread American disease, Rheumatism, with just common, everyday drugs, found in any drug store. The prescription is so simple that any one can prepare it and make up as follows: Get from any good prescription pharmacy Fluid Extract Dandelion, one-half ounce; Compound Compound Kuryon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking in a bottle and take in teaspoonful doses after each meal and at bedtime. These are all simple ingredients, making an absolutely harmless home remedy at little cost.

Rheumatism, as every one knows, is a symptom of deranged kidneys. It is a condition produced by the failure of the kidneys to properly filter or strain from the blood the uric acid and other matter, which, if not eradicated, either in the urine or through the skin pores, remains in the blood, decomposes and forms about the joints and muscles, causing untold suffering and deformity of rheumatism.

This prescription is said to be a splendid healing, cleansing and invigorating tonic to the kidneys, and gives almost immediate relief in all forms of bladder and urinary troubles and backache.

What She Inherited.
"Of course I can be maneuvering just as well with my left hand," said the left handed manicurist—"better, if anything, than you know. I don't know the difference you've been born that way, if you have inherited it."

" Didn't know it was a matter of inheritance? Why, certainly it is. No, left handedness, not manicuring. My father, grand-father and great-grandfather were all left handed, and so were nine cousins of mine."—Exchange.

Happy Hunting Ground.

His Glorious Victory.

The commanding officer had surprised the young Lieutenant and his daughter trying to occupy the same chair.

The Lieutenant sprang to his feet and said,

"Sir," he said, "I have the honor to report an engagement at close quarters in which I have been entirely victorious. It now merely remains for you to give your sanction to the terms of surrender."—London Scrap.

Influence of Pluck.

The blindest, the most purely instinctive, effort of mere pluck has a lifting power and deserves our thankful admiration. Every degree and every form of courage tends to raise the whole tone of life within the range of its influence in proportion to the amount and the quality of the endurance exercised.

FROM LEFT TO RIGHT.

is the Habit a Legacy From the Old Sun Worshippers?

The halfhook, about to be tackled, stopped, then darted in a long curve toward the right. He was soon downed.

"The other side knew he would turn from left to right," said a veteran.

"We all turn from left to right. To turn from right to left seems wrong, seems like overreaching. We wind a watch from left to right, the sun moves from left to right."

"In a subconscious way, you see, sun worship is still the religion of man!"—Exchanges.

"It all comes down to us from prehistoric times, from the sun worshippers. The sun moves from left to right, and its worshippers believed that all human actions must proceed accordingly. Well, they still do so.

Turnings become as the sun moves, and there's a suggestion that one re-

verse turn of the handle will spoil the batter.

"Cooks stir batter from left to right. A reversal, they say, would make the batter coarse and heavy."

"Slit your eyes and turn thrice. Turn your head thrice instinctively from left to right."

"Whalers put back again if the ship's first movement at the beginning of the voyage is not from left to right.

"In a rising knell!—a deep sound strikes like a rising knell! Did ye hear it?"

"But hush, hark!" declaimed the youngster— "that heavy sound breaks in once more. And the other, clearer, louder knock? Arm! Arm! It is the cannon's opening roar!"

"This goes too much, and the laugh that broke from the party swelled to a roar when Uncle Joe chuckled: "Put

up your weapons, children. I won't shoot any more."—Success Magazine.

The Division of Time.

The division of time into hours was introduced by the Babylonians from remote antiquity, but it was Hippocrates, the philosopher, who introduced the Babylonian hour into Europe. The sexagesimal system of notation was chosen by that ancient people because there is no number having so many divisors as sixty.

The Babylonians divided the day into twelve hours, each hour being equivalent to one twelfth of the day.

They divided the night into twenty-four hours, each hour being equivalent to one twenty-fourth of the night.

Each hour was divided into sixty minutes, and that again into sixty seconds. They counted the progress made by the sun during one hour at the time of the equinox, and the progress made by a good walker in the same period of time, both covering one parasang, or half the course of the sun during the full

equinoxial day was fixed at twenty-four parasangs.

Kissing the Hands.

The practice of kissing the hands was originated by the early Greeks and Romans, and was much resented as one of respect, and under the first Caesar was kept up, but only for a time. These worthless conceited ones of respect to their exalted station called for less familiar modes of obeisance, so the privilege was withdrawn.

It was reserved as a special mark of concession or distinction for officers of high rank. Roman fathers considered the practice of kissing so delicate a nature that they never kissed their wives in the presence of their daughters.

As money increases the love of it increases.—German Proverb.
